

Design Document
Service Scout
10/30/2024
Version 1

Gerrit Grevenstuk, Dalton Blume

1. Project overview:

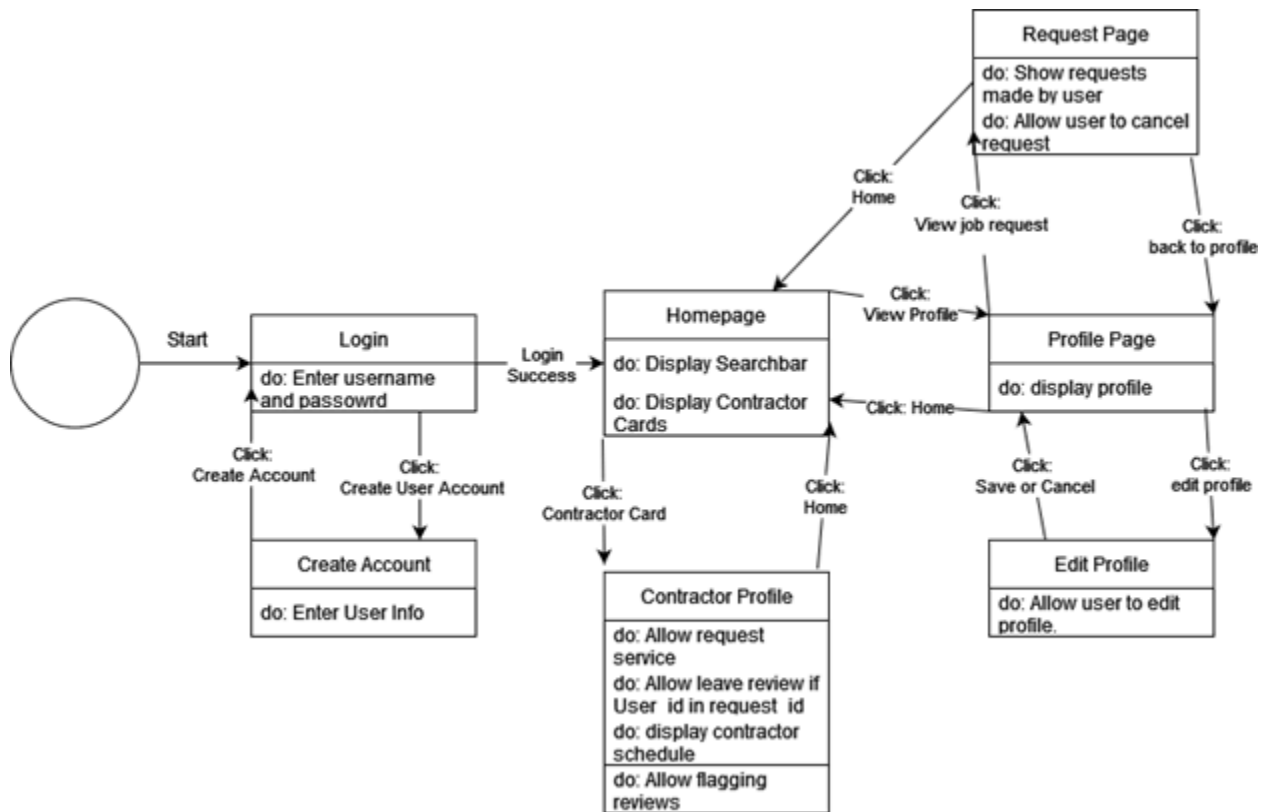

The goal of **Service Scout** is to provide a platform where users can easily search for and book qualified contractors to complete various jobs. The **Service Scout** app will also allow contractors to create detailed profiles that highlight their skills, services, and qualifications, making it easier for users to find the right professional based on their specific needs.

2. Use-case model:

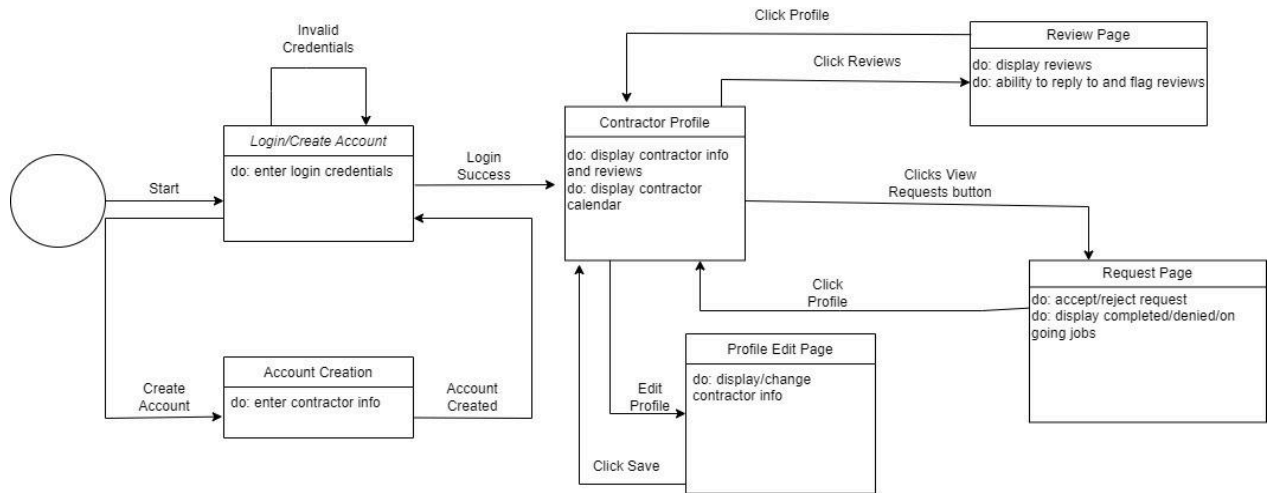

3. State Machine Diagrams

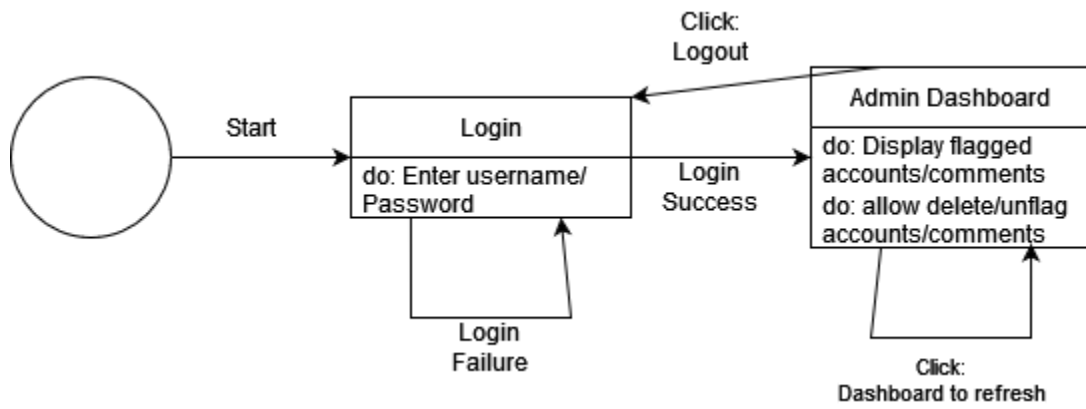

a. User - Gerrit Grevenstuk:

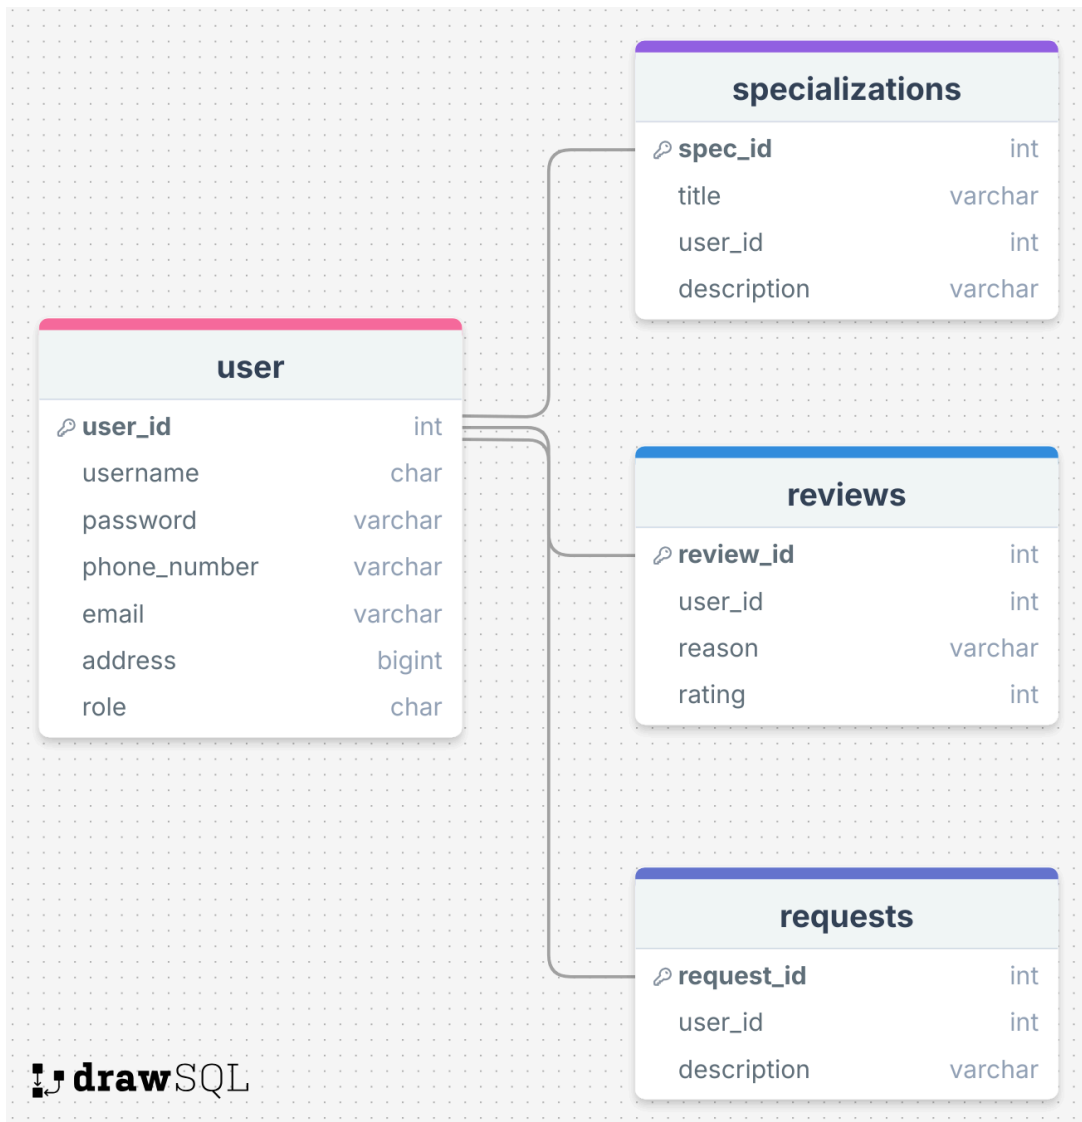

b. Contractor - Dalton Blume:

c. Admin - Gerrit Grevenstuk, Dalton Blume

4. Database Schema:

5. Software Architecture
